

Shelterbelts and Eco-Buffers: Agroforestry Systems for Profitability and Resilience

Monday July 15, 2019
5:00pm - 9:00pm

Battle River Innovation Center
5302-50th Avenue
Castor, AB

Free to Attend * But you must Register*
Light Supper & Refreshments Included

Be sure to dress for the weather!

Agenda

Presentation on designing and establishing shelterbelts and Eco-Buffers

Field visit of nearby riparian site to learn how to conduct a tree planting site assessment

Presentation on customizing your design to provide pollinator habitat, fruit production, water quality enhancement, and more!

Throughout the evening we'll be helping you develop your own tree planting design using worksheets and other resources provided

Please Register by: Friday July 12
