Bigstone Creek Restoration Project

WILLOW CUTTING WORKSHOP

Are you a landowner who wants to have more forest cover around your stream, wetland, or lake? Come learn how to harvest and plant stem cuttings that can provide this cover! We'll spend the day working outside on all the steps of willow staking, from sourcing cuttings, to proper preparation, to planting, all while restoring a local waterway! **Dress for the weather** and bring **rubber boots** and **pruners/loppers** if you have them!

Free workshop, but space is limited!

Register by Thursday, April 16th by contacting kbarkwell@county10.ca or calling 780-387-6182

*****PLEASE NOTE** This workshop is dependant on the thaw, so it may be postponed to April 24th to allow more time for the soil to warm. Registrants will be contacted if a change is made.***
