

Land Acknowledgement

We acknowledge that the land we know as Alberta resides within Treaties 6, 7, and 8, as well as portions of Treaties 4 and 10 and the Métis Homeland. We recognize with gratitude that the lands and waters we hold so dear today have been stewarded by First Nations, Inuit, and Métis Peoples for centuries.

WATERSHED **PLANNING** & ADVISORY COUNCILS **ALBERTA WPACS** Collaboration and Innovation in Watershed Management

WATER FOR LIFE

Water for Life: Alberta's Strategy for Sustainability was created in 2003. The strategy emphasizes collaborative partnerships to manage and protect water resources including designating Watershed Planning and Advisory Councils (WPACs).

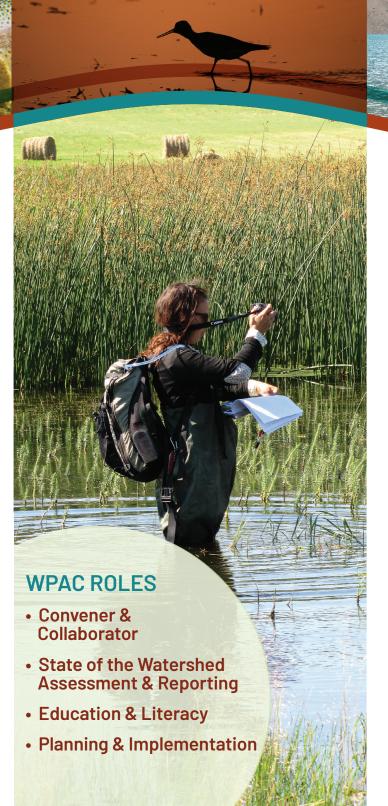

GOALS

- Safe secure drinking water
- Healthy aquatic ecosystems
- Reliable quality water supply for a sustainable economy

VALUE OF WPACs

There are eleven WPACs to represent the major basins in the province. Each operates as an independent not-for-profit society guided by a Board of Directors.

WPACs are vital, unbiased partners to the provincial government, uniquely positioned to support diverse water management priorities. They foster consensus across community partners, bringing together all levels of government, indigenous communities, agriculture, industry, conservation, academia, and the public.
